A close-up, artistic photograph of a car's headlight, heavily tinted with a vibrant red color. The headlight's complex lens structure, including a large circular projector and smaller auxiliary lights, is visible through the red filter. The surrounding car body panels are dark and reflective, mirroring the red light. The overall mood is futuristic and high-tech.

CORPORATE GOVERNANCE

The Company has continued to strengthen connectivity, support companies in the network through the

improvement and application of management report forms to share information, update market situation periodically and abnormally, organize many seminars in combination with workshop visits; perform assessments and recommend solutions to improve operational efficiency on companies that are not operating effectively; support the companies in auto outlet development to ensure adherence to the annual plan and the network development strategy

Focusing on liquidating inefficient financial investments to

recover capital and on collecting dividends from business investments to supplement and develop core business activities.

Strategic cooperation with Vietinbank, Vietcombank: continue to promote efficiency and create favorable conditions for companies in the network to access capital with preferential policies and interest rates.

Continue to conduct risk assessment in business operations, financial management, cost control to improve business performance at each member company.

Research and apply technology in the whole network through applying ERP management system and online information sharing channel such as forum of human resources, finance, accounting and trade...

DIVIDEND

Cash dividend of 2017 was paid to shareholders in September 2018 at rate of 12% of par value in accordance with the Resolution of the AGM 2018, equivalent to nearly 30,000,000,000 VND.

To maximize the effectiveness of shareholders when investing in the Company and base on the 2018 business

performance, the Board of Directors proposes the AGM 2019 to increase the cash dividend rate for 2018 from 12% as planned to 15% (of par value).

ENVIRONMENTAL AND SOCIAL RESPONSIBILITY

Companies in network continue to comply with regulations and policies on safety, environmental protection, fire prevention and control through strict control from ideas to implementation.

Responsibility for the community and society continues to be implemented in the network through care and support activities for social policy beneficiaries, difficulties and other voluntary activities.

In 2018, the member companies in the network achieved nearly 20 awards at professional competitions of manufacturers, the Company and some member companies continued to win the Vietnam Golden Star Award and Typical Enterprise of Ho Chi Minh City. The Company is also honored to be ranked 85 out of Top 500 Largest Enterprises in Vietnam and ranked 31 out of Top 500 Largest Private Enterprises in Vietnam.

REPORT OF THE BOARD OF DIRECTORS (continued)

MONITORING AND ASSESSMENT ON OPERATIONS OF THE BOARD OF MANAGEMENT, CAPITAL REPRESENTATIVES

The Board of Directors has supervised the operations of the Board of Management, the capital representatives through working agenda, meetings of the Board of Directors; regularly discussed and questioned the Board of Management, the capital representatives at meetings, group work sessions and via email, telephone to ensure accuracy, suitability, timeliness and efficiency.

Based on the monitoring process and the actual results of business performance, the Board of Directors recognizes that:

- ▶ From the beginning of the year, the Board of Management worked with the capital representatives in member companies to build and implement the business plan for 2018 on the basis of conformity with the characteristics of each business localities and the business practices of each company; the market forecast operations, information sharing is done quickly and promptly; the development and expansion of networks, diversification of distribution products and increased market share for core business are focused and promoted; the implementation of procedures related to real estate projects is focused; the inspection and control of financial accounting operations, compliance control are implemented more closely and regularly.
- ▶ Based on the positive business performance of 2018 and the clearer market situation, the Board of Management and the capital representatives agreed to establish new target with some figures increased by more than 40% compared to the original target approved by the AGM. The revised target has been approved by the Board of Directors under the authorization of the AGM, as follows:

Unit: VND billion

Figures	2018 original plan approved by AGM	2018 revised plan	2018 revised/ original plan %
Revenue	14,200	14,200	100%
Profit before tax	175	250	143%
Net profit after tax	140	200	143%
NPAT attributable to equity holders	82	120	146%
Cash dividend payout ratio (by par value)	Minimum 12%	Minimum 12%	100%

- ▶ The quarterly and annual financial statements is prepared and disclosed in accordance with the current regulations.
- ▶ However, the Board of Management should focus more on implementing and supporting company members to implement legal procedures related to land for the development of trading - service projects; ensuring the completion of legal procedures to transfer some real estate projects; have solutions to improve the administration and management more and more professionally in business operations, financing operations, human resource development and risk control for the network.

THE OPERATIONS OF THE BOARD OF DIRECTORS

In 2018, the Board of Directors has operated in accordance with the provisions of Law, Company's Charter and achieved the best business performance in the ability for the Company. The work under the authority of the Board of Directors is resolved by members with the spirit of concentration, prudence, responsibility and protection of the interests of the Company and Shareholders in accordance with law and regulations; whereby, the revenue, profit, and system network scale are increasing.

The Board of Directors has directed, implemented and supervised the business operations of the Company and the network through 07 face to face meetings held quarterly and when necessary, 25 times by collecting written opinions of members, thereby issuing 27 decisions and 48 announcements.

Members of the Board of Directors are provided with information and documents in a complete and timely manner to have enough time to consider, discuss, comment and make decisions. The decisions of the Board of Directors are approved on the basis of specific, clear, complete information and consensus of the members. The guidelines and conclusions of the Board of Directors are issued quickly so that the Board of Management and capital representatives can promptly implement.

The decisions of the Board of Directors are publicly disclosed in accordance with regulations and voluntary

disclosure, contributing to improving the responsibilities of the Board of Directors to shareholders, creating conditions for shareholders to supervise operations of the Board of Directors.

The Board of Directors has also closely coordinated with the Board of Supervisors to check and supervise the compliance with Law, Company's Charter and other relevant regulations in corporate governance and management operations of the Company and network.

The subcommittees of Remuneration and Human Resources managed by independent member of the Board of Directors have supported the Board of Management and advised the Board of Directors in developing policies, plans as well as review, amend the salary and bonus policies for more and more suitable; select appropriate personnel to elect and appoint key and important positions of the Company and companies in the network.

The Board of Directors has proposed and was approved by the AGM to add a new member of the Board of Directors in the independent position in order to gradually improve the proportion of independent members according to Law and meet the development requirements of the Company. New members of the Board of Directors are facilitated to interact and deeply participate in the Company's operations.

BUSINESS PLAN OF 2019

Vietnam economy in 2019 is forecasted to continue stable but also face with many challenges. The automotive market is forecasted to face many difficulties with new policies on taxes, fees, administrative procedures ... while the car supply is expected to increase sharply according to manufacturers' plans (increase 20% - 25% compared with 2018). The real estate market continues stable, but will also face difficulties when credit growth rate is control, exchange rates may fluctuate. Therefore, the Board of Directors sets out the following directions in 2019:

- ▶ Build up the network development roadmap in localities and companies in network.
- ▶ Mobilizing all resources of financial and human resources to develop and expand the network in accordance with set schedule and actively develop land banking for project development.
- ▶ Implement increase charter capital for the Company and enterprises companies in the network to enhance financial capability and business' financial position.
- ▶ Strengthening the cooperation and investment relations with strategic partners, connecting with investors interested in business activities of the Company.
- ▶ Enhancing the management role of the parent Company to member companies. Promote corporate culture, strengthen internal cohesion, ensure the development of the network system in the future.
- ▶ Build up goals, vision and business strategy for the term of 2020 - 2025.

From these orientations, the Board of Directors agrees on the 2019 business plan proposed by the Board of Management as follows:

Figures	2018 (A) (VND billion)	2019 Plan (VND billion)	% 2019 Plan /2018 (A)	% 2019 Plan /2017 (A)
Revenue	14,882	18,193	122%	132%

- ▶ Enhancing the effectiveness of sharing information on management in the whole network.

- ▶ Continue to strengthen the connection, sharing experiences and information throughout the network through organizing seminars on sales and services combined with actual sightseeing, through groups and forums to share online: Zalo, Facebook, clubs.

FUTURE DEVELOPMENT PLAN

2019 MARKET OUTLOOK

GENERAL SITUATION

Vietnam macroeconomic situation in 2019 is expected to continue to be stable. The participation in many bilateral and multilateral free trade agreements has reduced unfavorable impacts from international market. However, with the increasingly deep integration with the world economy, Vietnam's economy will be influenced by many aspects, all changes of the world can affect the domestic economy, even the Vietnam's economy can be caught up in the "whirlpool" of those fluctuations. At the same time, with a small economic scale, the response to future fluctuations may be more difficult because of limited financial and monetary balance.

TRADING - SERVICE

Business operations of the Company will face many challenges in 2019, especially the Trading - Service will be directly affected by automotive policies:

CHALLENGES

- ▶ Supply, new dealership network of manufacturers is expected to increase strongly, the entry of new manufacturers. Strenuous competition in price, volume, market share, human resources.
- ▶ Commercial vehicle stocks in the market are still quite high, the Commercial vehicle market has not yet recovered.
- ▶ Decree 154 stipulates the quality control of spare parts when customs clearance. Technical barrier to limit CBU cars to Vietnam.
- ▶ The exchange rate can rise further, oil prices tend to rise. May cause an increase in cars' price
- ▶ The Ministry of Finance proposed to adjust the special consumption tax from July 2019 with tax rate of 60% - 150% for cars over 2.5l. The car price has cylinder capacity over 2.5l can increase 15-20%.
- ▶ Registration fee for pickup increased by 60% compared to Passenger cars' tax rate. Pickup price increased by at least 30 - 70 VND million/unit.
- ▶ The Ministry of Finance proposed to impose property taxes on cars valued at more than VND 1.5 billion with a tax rate of 0.3 - 0.4%.
- ▶ Interest rates tend to increase, financial expense increase.
- ▶ Grab will be tightly controlled and proceed to attach identification caps and meters like traditional Taxi. Reduced demand.

OPPORTUNITIES

- ▶ Macro economy is expected to continue to grow steadily in 2019.
- ▶ The Ministry of Finance proposed to adjust the special consumption tax from 7/2019 for cars below 1.5l to 25%, down 20% compared to the current tax rate. Opportunities for cars with cylinder capacity below 1.5l.
- ▶ The automotive market will continue to grow strongly due to abundant car supplies, many new models will be upgraded, launched. Market capacity of 2019 is expected to increase by 20-25% compared to 2018.
- ▶ CPTPP officially took effect in Vietnam from January 14, 2019. Attracting investment capital inflows. Promoting economic growth (GDP Increases 1.32% - 2.01%).

REPORT OF BOARD OF MANAGEMENT (continued)

REAL ESTATE SERVICE

Real estate market is expected to continue to grow stably:

- ▶ Affordable real estate still plays a key role. However, the size of low-end real estate market is narrowed, mainly focusing on middle and high-end segment.
- ▶ Land-lot continues to be an attractive investment channel in 2019, especially in sub-urban areas;
- ▶ Credit tightening (According to Circular 36/2014/TT-NHNN and Circular 16/2018/TT-NHNN) is a bottleneck of the market, reducing the development of the real estate market. At the same time, this is also the opportunity for the market to be purified, towards sustainable development, stability and in-depth development.

FINANCING

Credit growth is forecasted at 14% in 2019, interest rates rise slightly, exchange rates will still flexibly and less volatile in 2019. However, the following points should be noted:

- ▶ The exchange rate may fluctuate from 1.7 to 3.0% depending largely on the US-China trade war;
- ▶ FED keeps the policy of raising interest rates 4 times in 2019 - Influencing monetary policy as well as the movement of foreign capital flows.

RESULTS OF IMPLEMENTATION OF THE RESOLUTION OF THE 2018 ANNUAL GENERAL MEETING OF SHAREHOLDERS

RESULTS OF IMPLEMENTATION OF TARGETS FOR 2018 APPROVED BY THE GENERAL MEETING OF SHAREHOLDERS

Results of implementing business targets according to audited consolidated FS:

Figures	2018 revised plan (VND mil)	2018 (A) (VND mil)	% 2018 (A)/2018 revised plan	% 2018 (A) /2017 (A)
Revenue	14,200,000	14,881,843	105%	108%
Profit before tax	250,000	362,312	145%	208%
Net profit after tax	200,000	300,267	150%	216%
NPAT attributable to equity holders of the Company	120,000	173,003	144%	212%

Consolidated revenue of SAVICO network in 2018 exceeded 5% of the plan and increased 8% to compare with 2017 with the increasing of revenue of trading - service and real estate service.

In trading - service, both of the automotive and motorcycle sector both saw growth in volume and the number of newly developed outlet. Volume of cars sold in the network was 31,548 units, reaching 108% of the plan and up 17% compared to 2017; SAVICO's automotive market share continued to grow in 2018, reached 10.9%, increased by 1.0 percentage point compared to 2017 (VAMA Report); the network also opened and put into operation 7 new outlets. For the motorcycle sector, sales volume reached 8,884 units, reaching 98% of the 2018 plan and up 2% compared to 2017. In 2018, the Company network also opened and put into operation 1 of 3S Yamaha Phung Hiep outlet (Yamaha Saigon 4).

Consolidated profit before tax of 2018 exceeded 45% to compare with the revised plan of 2018 and up 108% to compare with 2017. NPAT attributable to equity holders of the Company exceeded 44% of the plan and increased 112% compared to 2017. The increase in profit before tax mainly came from the increase in gross profit margin and thanks to the outstanding profit growth of most of the member companies in the network, especially the Bac Au Automobile JSC., Toyota Ly Thuong Kiet Co., Ltd., Toyota Giai Phong JV, Toyota Can Tho JV, Toyota East Sai Gon JSC, Savico Hanoi Corporation, Saigon Automobile Service JSC (Saigon Ford). The year 2018 also showed the efforts of the Board of Management in the merge of OtoS with Carmudi, however the operation of this Company is in difficulties; ComfortDelgro SAVICO Taxi has completed tax finalization, disposals of all cabs, stop business operations, on the step of completing the dissolution procedures

FINANCIAL SITUATION

Total assets/resources in consolidated financial statement at 31 December 2018 was VND 4,355,649 million, up VND 738,612 million to compare with the end of 2017. In which, assets increased mainly in inventory value; owner's equity increased by VND 257,798 million and liabilities increased by VND 480,813 million mainly due to the increase in short-term loans to supplement working capital. The liabilities on total assets ratio as at 31 December 2018 is 64.76%, equivalent to the end of 2017.

Total assets/resources in separate financial statement at 31 December 2018 was VND 1,280,842 million, up VND 14,606 million to compare with the end of 2017. In which, assets increased mainly in investments in subsidiaries; owner's equity increased by VND 7,489 million from profit after tax; liabilities increased by VND 7,245 million due to the increase in prepayment from customers. The liabilities on total assets ratio as at 31 December 2018 is 44.02%, equivalent to the end of 2017.

Financial ratio:

Ratio	Unit	By separate (Parent Company)		By consolidated	
		31/12/2017	31/12/2018	31/12/2017	31/12/2018
Current ratio	time	0.42	0.39	0.91	0.97
Liabilities/Owner's equity	%	4.09%	4.26%	96.20%	106.39%
Liabilities/Total assets	%	43.96%	44.02%	64.69%	64.76%
Interest coverage	time	16.82	12.51	2.91	5.26
ROE	%	7.46%	6.37%	10.89%	19.56%
ROA	%	4.18%	3.57%	3.84%	6.89%
EPS	VND/share			3,183	6,425

In 2018, although the liabilities on owner's equity ratio of the network increased from 96.2% to 106.4%, the interest coverage ratio improved significantly from 2.91 times up 5.26 times thanks to increased business performance of the network. Along with the increase in business performance; the ROE, ROA and EPS increased significantly compared to 2017. At the parent Company, the interest coverage, ROA, ROE ratios are lower than 2017 due to the decrease in parent Company's profit (parent Company's profit before tax in 2018 reached VND 45,805 million, equivalent to 80% profit before tax of 2017). The main reason is due to the decrease in income from real estate transfer compared to 2017. Even so, the Company still ensure the ability to pay interest (12.51 times) from the operating profit.

THESE RESULTS SHOW THAT SAVICO CAN FULLY PAY DIVIDEND OF 2018 AT THE RATE OF 15%, HIGHER THAN THE RATE OF 12% APPROVED BY THE 2018 GENERAL MEETING OF SHAREHOLDERS.

PROFIT DISTRIBUTION IN 2017

REPORT OF THE BOARD OF SUPERVISORS (continued)

VERIFICATION OF SEPARATE FINANCIAL STATEMENTS AND CONSOLIDATED FINANCIAL STATEMENTS

The Board of Supervisors has conducted a review of the separate financial statements and consolidated financial statements of 2018. In the opinion of Board of Supervisors, audited separate financial statements and audited consolidated financial statements of the Company give a true and fair view, in all material respects of the operations in 2018 and financial position on December 31, 2018.

RESULTS OF INFORMATION DISCLOSURE OF THE COMPANY

Most information disclosure of the Company are fully implemented, in accordance with regulations of management agencies for large-scale listed companies. However, there are 2 contents related to tax violations in 2017 and 2018 that the Company has been slow to disclose information. The Company also has a written explanation on the issue of delayed publication of these information.

RECOMMENDATIONS OF THE BOARD OF SUPERVISORS:

On Corporate Governance Regulation:

- ▶ The 2015 Annual General Meeting of Shareholders approved the election results of 07/07 members of the Board of Directors, of which there were 02/7 members of the Board of Directors to ensure the standards and conditions are independent BOD members.
- ▶ However, as of August 1, 2017 - the effective date of Decree 71/2017/ND-CP guidelines on corporate governance of public companies, one member of the Board of Directors does not meet the criteria of independent BODs members. Because this member has been a member of the BODs of SAVICO for 5 consecutive years (term 2010 - 2015). This makes the number of independent Board members only 1/7 of the total number of Board members.
- ▶ At the 2018 Annual General Meeting of Shareholders, the Meeting elected 01 additional member of the Board of Directors, increasing the total number of independent Board members to be 2/8 members of the Board of Directors. However, this ratio does not guarantee the requirement that 1/3 of members are independent members of the Board of Directors. The Board of Supervisors recommends that the Board of Directors should consult Shareholders on the time to implement this content: to elect additional independent members to the Board of Directors at the General Meeting of Shareholders in 2019 or at the General Meeting of Shareholders in 2020.

Disclosure of information: It is noted to disclose of extraordinary information within 24 hours, avoiding the situation in 2018 when the Company has delayed the disclosure of information related to tax violations 2017 & 2018.

Financial Management Regulation: it is necessary to supplement regulations on management of receivables as stated in the Financial Management Regulation so as to guide how to manage appropriate receivables with different types of receivables.

Regulation of management of capital representatives: it is necessary to review & change some contents to suit the reality in order to more favorable in the management from parent Company to member companies.

Solutions should be quickly implemented to increase the efficiency of system governance.

In 2018, SAVICO has made important solutions to increase the efficiency of system governance such as:

- ▶ Completed the construction and guidance on how to set up indicators on reporting forms, which can synchronize the system of periodic reporting criteria to serve statistics and system analysis.
- ▶ Completed the construction and issuance of the Financial Management Regulation in all member companies.
- ▶ Developed and disseminated the contents of the Control Manual, Control Report Checklist to guide the contents to be controlled at member companies.

In 2019, the Board of Management should quickly implement the following solutions as planned, including: (1) Based on the business performance of each company member, conduct assigning KPIs to capital representative groups; (2) Apply ERP system in the parent Company and member companies to serve the reporting, collecting and managing system data quickly and accurately; (3) Completion the establishment of the Finance/Investment Department to focus on managing financial analysis of financial investments of SAVICO as well as SAVICO's investment projects.

In addition to implementing the above-mentioned solutions, the Board of Supervisors recommends the Board of Management to implement more of the following contents:

- ▶ Reviewing the indicators on the report form to be able to statistically report the volume, revenue, expenses according to each sector, each brand/model of vehicle to serve the analysis work.
- ▶ Supplementing the financial indicators on the report form, especially the financial indicators to be controlled are defined in the Financial Management Regulation. This information is particularly important to help SAVICO to regularly monitor the financial situation of each member company.

This is solid foundation for SAVICO to find out individuals suitable for each development period of the company. Those with big contributions, good virtue, positive working attitude, good performance, etc. will be offered rotational training programs to improve professional knowledge to hold important management positions of SAVICO.

INNOVATIONS ON ORGANIZATIONAL STRUCTURE AND MANAGEMENT POLICIES

ASSESSMENT ON INNOVATIONS IN POLICY AND MANAGEMENT

2018 was the year that SAVICO's BOM emphasized on creativity and innovation in all activities with a slogan of "breakthrough thinking, drives values". Apart from maintaining traditional humanity policies, the BOM has driven its values by:

- ▶ Implementing internal communications activities that are fit with traditional and cultural characteristics of SAVICO. These activities have been strengthened as a consistent campaign in 2018 to create a connectivity, promote innovation, creativity and recognize laborers' contributions.
- ▶ Making breakthroughs in training a future generation of human resource by sending employees to participate in direct trainings, preparing for high-ranking human resource. Staff rotation was conducted flexibly, maximizing human resource and taking advantage of the system's strength to prevent the "human capital flight" out of SAVICO.
- ▶ Salary policy and pay rise are implemented based on ability and competency of each individual and job position.
- ▶ Evaluating current human resource and management system of SAVICO, using information of consulting partner as a channel to serve action plans on improving and enhancing work performance, quality of human resource and management policy of SAVICO.
- ▶ Turnover rate of SAVICO in 2018 was slightly higher as of 2017, but the company has conducted a timely recruitment, developed human resource and made changes in human resource policy in a flexible manner but ensure the principle of stability of common internal background and enhance productivity of SAVICO.
- ▶ Board of Management has carried out many flexible policies by arranging functional units to support members, joint-ventures (Board of Supervisors, trade services, finance and accounting, legal affairs, administration and human resource, etc.). Transform of management thinking toward modern trend – servant trend for the whole system and leading in accordance with SAVICO's orientation. Board of Management has proactively directed investment activities in case of changes incurred, maximizing advantages of functional units to support its members including new members.

ASSESSMENT ON INNOVATIONS IN ORGANIZATIONAL STRUCTURE AND LABORER RELATED ISSUES

In 2018, SAVICO has hired consultancy company to support SAVICO to assess its current organizational structure and human resource. The report of the consultancy company is a useful information base for SAVICO to work out action plans to reinforce its corporate governance, to build common strategy and to develop human resource.

Basically, SAVICO's current organizational structure ensures its business activities as well as targets set by Board of Directors. SAVICO's management apparatus is developed toward specialization with a young human resource, attracting high quality human resource from labor market. Human resource is operated in a streamlined manner, improving work efficiency, encouraging creativity, applying technology, getting updates of trends and knowledge of the world.

SAVICO has deployed a flexible policy in training and developing human resource such as on the job training, in-house training, public training and job rotating.

SAVICO's business results are impacted by some elements incurred by macro-economic environment, automobile retail and real estate market whereby main risks as follows:

STRATEGIC RISK

This risk occurs when SAVICO are implementing inappropriate, inconsistent and asynchronous strategies for its affiliates and subsidiaries. This leads to failure of implementation of long-term strategic intentions.

The control measure is to clearly convey strategic plans in preliminary meetings, year-end ceremonies and meetings at parent company and are periodically evaluated by internal control department and relevant functional units, reported to BOD, BOM in periodic meetings.

PERSONNEL AND SUCCESSION PERSONNEL RISK

This risk occurs when personnel cannot adapt to the corporate culture of the Company; One/ some key positions are vacant or cannot find enough critical positions for the Company's business projects and companies in the system in an acceptable timeframe.

The control measure is to complete the process of planning, training, rotation, personnel evaluation, improvement of employees' income policy; using the fund of talent development effectively, the trainee programs, and seek and attract experienced personnel from outside to collaborate for the development of SAVICO system.

MACRO-ECONOMIC ENVIRONMENT

AUTOMOBILE BUSINESS OPERATION

Automobile industry and automobile market have shown a significant correlation during macro-economic fluctuations in both time and scale. Currently, Vietnam automobile market continues to strongly grow. However, if these significant fluctuations incurred in the local automobile industry are resulted from development life-cycle of Marco-economy, automobile sales volumes will be surely impacted.

REAL ESTATE OPERATION

Legal corridor of real estate market is significantly improved toward stability and sustainability. Vietnam's integration into regional and global economy helps increase the requirements of office rent, space rent and retail space rent in big cities. This helps create a sustainable cash flow and brings high profit for office building investors, retail space providers. Besides, e-commerce with increasing presence of technology companies will have strong impacts on real estate market for lease and will become the biggest impact on retail real estate of Vietnam in the next coming years. Therefore, SAVICO is required to keep a close eye at economic changes and adjust general business plans, network expansion plan and marketing plans in different market conditions.

AUTOMOBILE INDUSTRY POLICIES AND ITS IMPACT

AUTOMOBILE BUSINESS OPERATION

SAVICO's business activities must comply with policies and regulations specified the Government to effectively manage automobile industry and automobile market. The changes in automobile policies can lead to a decline in market demand of products, services and escalating market competition and then a decline in revenue and profit. Therefore, SAVICO will closely monitor every change in the Government's policies in the automobile industry, regularly check and evaluate to continuously improve standard of services, to deal with every risk occurred from the changes in the automobile industry's policies.

REAL ESTATE OPERATION

The State's real estate market management activities have been strengthened toward a healthy and stable development.

2019 will be a special year for real estate market. The reason is that there will be legal changes in term of reviewing, inspecting legal status of projects and a restriction of issuance of new construction licenses, etc. This causes a series of risks that impacts on real estate market and leads to limited primary supply. However, there will an abundant real estate supply in neighboring areas and provinces, it is important to choose the types of real estates to invest.

Meanwhile, office & retail space market in HCMC continuously records a rent increase in stable and impressive margin. This reflects that the potential on real estate market is still very huge.

POLICY OF AUTOMOBILE MANUFACTURERS

As a group of car dealers, we focus on maintaining healthy cooperation relations with branded car manufacturers.

The changes in manufacturers' policies can lead to changes in sale strategies, sale incentives and business policy support, however, these changes can lead to a decline in sales volumes and revenue. Therefore, the company will strengthen contacts with car manufacturers and pursue development strategy with a series of car brands to diversify products and minimize risks.

SEVERE COMPETITION

We not only compete with other automobile dealers but also with companies and agencies in field of car repairing services in general and e-commerce in particular such as sale, repair, maintenance and other services.

Our inability to timely response to challenges emerged from our competitors can lead to a decline in number of customers, product/service revenue and profit. Therefore, it is requested that we need to adjust our strategy and to improve standard of general services to stay firm in such a severe competition.

RISK MANAGEMENT (continued)

SUPPLY CHAIN

We do not own or run any manufacturing facility, our business activities completely depend on supply sources from car manufacturers and branded automobile spare-part and component suppliers. Any interruption from manufacturers and suppliers can impact on our business activities. However, we have established long-term and stable cooperation relations with famous car manufacturers and spare-part suppliers. These relations are highly appreciated by suppliers. We have been making efforts to minimize impacts of any interruption and ensure to seek other suppliers with similar product quality and reasonable price at any time.

ENVIRONMENTAL PROTECTION

Our focus is in automobile and motorcycle business activities, we pay a special attention to types of cars and motorcycles which meet emission standards and causes less harm to environment for environmental protection. We also restrict selling types of vehicles that cause environmental pollution (junk or old vehicles) but providing cars that meet Euro 4 emission standard in accordance with regulations on emission limits of car, two-wheeled vehicles locally installed or imported. Regarding to repairing services, we apply waste treatment measures that meet the State's requirements on environmental management. Application of environment related standards and regulations help us improve environmental pollution in general and pollution issues in big cities in particular.

INFORMATION SYSTEM

Our business activities depend on IT system related to procurement, sale and distribution at all our affiliates and subsidiaries, management of inventory, customers, marketing, financial statement and automatic financial management. Any serious interruption impacting or slowing down IT system can lead to data loss, inaccurate data or a delay in operation management. Therefore, we will invest in IT system and ERP system in a continuous manner to ensure technology security, access ability and data sufficiency.

MARKET RISK

The company is subject to different market risks including credit risk, liquidity risk, interest rate risk and exchange-rate risk, details are included in Note to the financial statements. The company has effectively controlled market risks by continuously monitoring all risks and changes to timely issue risk warnings and apply appropriate protective tools.

STATEMENT OF THE BOARD OF DIRECTORS

The Board of Directors of Saigon General Service Corporation ("the Company") presents this statement and the accompanying separate financial statements of the Company for the year ended 31 December 2018.

The Board of Directors is responsible for the preparation and fair presentation of the separate financial statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting. In the opinion of the Board of Directors:

- (a) the separate financial statements set out on pages 103 to 107 give a true and fair view of the unconsolidated financial position of the Company as at 31 December 2018, and of the unconsolidated results of operations and the unconsolidated cash flows of the Company for the six-month period then ended in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Company will not be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised the accompanying separate financial statements for issue

On behalf of the Board of Directors

Mai Viet Ha
General Director

Ho Chi Minh City, 11 March 2019

INDEPENDENT AUDITOR'S REPORT

TO THE SHAREHOLDERS SAIGON GENERAL SERVICE CORPORATION

We have audited the accompanying separate financial statements of Saigon General Service Corporation ("the Company"), which comprise the separate balance sheet as at 31 December 2018, the separate statements of income and cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on 11 March 2019, as set out on pages 103 to 107.

MANAGEMENT'S RESPONSIBILITY

The Company's Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of separate financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

AUDITOR'S OPINION

In our opinion, the separate financial statements give a true and fair view, in all material respects, of the unconsolidated financial position of Saigon General Service Corporation as at 31 December 2018 and of its unconsolidated results of operations and its unconsolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

STATEMENT OF THE BOARD OF DIRECTORS

The Board of Directors of Saigon General Service Corporation ("the Company") and its subsidiaries (together referred to as "the Group") presents this statement and the accompanying consolidated financial statements of the Group for the year ended 31 December 2018.

The Board of Directors is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting. In the opinion of the Board of Directors:

- the consolidated financial statements set out on pages 111 to 159 give a true and fair view of the consolidated financial position of the Group as at 31 December 2018, and of the consolidated results of operations and the consolidated cash flows of the Group for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting; and
- at the date of this statement, there are no reasons to believe that the Group will not be able to pay its debts as and when they fall due.

The Board of Directors has, on the date of this statement, authorised the accompanying consolidated financial statements for issue.

TO THE SHAREHOLDERS

On behalf of the Board of Directors

Mai Viet Ha
General Director

Ho Chi Minh City, 11 March 2019

INDEPENDENT AUDITOR'S REPORT

SAIGON GENERAL SERVICE CORPORATION

We have audited the accompanying consolidated financial statements of Saigon General Service Corporation ("the Company") and its subsidiaries (together referred to as "the Group"), which comprise the consolidated balance sheet as at 31 December 2018, the consolidated statements of income and cash flows for the year then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on 11 March 2019, as set out on pages 111 to 159.

MANAGEMENT'S RESPONSIBILITY

The Company's Board of Directors is responsible for the preparation and fair presentation of these financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

AUDITOR'S OPINION

In our opinion, the consolidated financial statements give a true and fair view, in all material respects, of the consolidated financial position of Saigon General Service Corporation and its subsidiaries as at 31 December 2018 and of its consolidated results of operations and its consolidated cash flows for the year then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Form B 09 - DN/HN
(Issued under Circular No. 200/2014/TT - BTC dated 22 December 2014 of the Ministry of Finance)

for the year ended 31 December 2018 (continued)

2. BASIS OF PREPARATION**(a) Statement of compliance**

The consolidated financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

(b) Basis of measurement

The consolidated financial statements, except for the consolidated statement of cash flows, are prepared on the accrual basis using the historical cost concept. The consolidated statement of cash flows is prepared using the indirect method.

(c) Annual accounting period

The annual accounting period of the Group is from 1 January to 31 December.

(d) Accounting and presentation currency

The Group's accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statement presentation purpose.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies have been adopted by the Group in the preparation of these consolidated financial statements.

(a) Basis of consolidation**(i) Subsidiaries**

Subsidiaries are entities controlled by the Group. The financial statements of the subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

(ii) Non-controlling interests

Non-controlling interests ("NCI") are measured at their proportionate share of the acquiree's identifiable net assets at date of acquisition.

Changes in the Group's interest in a subsidiary that do not result in a loss of control are accounted for as transactions with owners. The difference between the change in the Group's share of net assets of the subsidiary and any consideration paid or received is recorded directly in retained profits under equity.

(iii) Loss of control

When the Group loses control over a subsidiary, it derecognises the assets and liabilities of the subsidiary, and any related NCI and other components of equity. Any resulting gain or loss is recognised in the consolidated income statement. Any interest retained in the former subsidiary when control is lost is stated at the carrying amount of the retained investments in the consolidated financial statements adjusted for appropriate shares of changes in equity of the investee since the acquisition date, if significant influence in the investee is maintained, or otherwise stated at cost.

for the year ended 31 December 2018 (continued)

iv Associates

Associates are those entities in which the Group has significant influence, but not control, over the financial and operating policies. Associates are accounted for using the equity method. The consolidated financial statements include the Group's share of the income and expenses of the associates, after adjustments to align the accounting policies with those of the Group, from the date that significant influence commences until the date that significant influence ceases. When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest (including any long-term investments) is reduced to nil and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

(v) Transactions eliminated on consolidation

Intra-group transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains and losses arising from transactions with associates are eliminated against the investments to the extent of the Group's interest in the associate.

(b) Foreign currency transactions

Transactions in currencies other than VND during the year have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate and account transfer selling rate, respectively at the end of the accounting period quoted by the commercial bank where the Company or its subsidiaries most frequently conducts transactions.

All foreign exchange differences are recorded in the consolidated statement of income.

(c) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(d) Investments**(i) Trading securities**

Trading securities are those held by the Group for trading purpose i.e. purchased for resale with the aim of making profits. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less allowance for diminution in value. An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(ii) Held-to-maturity investments

Held-to-maturity investments are those that the Group's management has intention and ability to hold until maturity. Held-to-maturity investments include term deposits at bank, bonds, redeemable preference shares which the issuers are required to repurchase at a certain date and granting loans held to maturity. These investments are stated at costs less allowance for impairment.

(d) Investments (continued)

(iii) *Investments in equity instruments of other entities*

Investments in equity instruments of other entities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment values if the investee has suffered a loss, except where such a loss was anticipated by the Group's management before making the investment. The allowance is reversed if the investee subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(e) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

(f) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a specific identification basis for real estate, cars, motorbikes and weighted average basis for other items and includes all costs incurred in bringing the inventories to their present location and condition. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and selling expenses.

The Group applies the perpetual method of accounting for inventories.

(g) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the consolidated statement of income in the year in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

buildings	6 - 42 years
machinery and equipment	4 - 8 years
office equipment	2 - 10 years
motor vehicles	5 - 6 years
others	3 - 5 years

for the year ended 31 December 2018 (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

(h) Intangible fixed assets

(i) *Land use rights*

Land use rights comprise:

- » those granted by the State for which land use payments are collected;
- » those acquired in a legitimate transfer; and
- » rights to use leased land obtained before the effective date of Land Law (2003) for which payments have been made in advance for more than 5 years and supported by land use right certificate issued by competent authority.

Land use rights with indefinite period of use are stated at cost. Land use rights with definite period of use are stated at cost less accumulated amortisation. The initial cost of land use rights comprises its purchase price and any directly attributable costs incurred in conjunction with securing the land use rights. Amortisation is computed on a straight-line basis over 20 to 50 years.

(ii) *Software*

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over 3 to 4 years.

(i) Investment property

Investment property held to earn rental

Cost

Investment property held to earn rental is stated at cost less accumulated depreciation. The initial cost of an investment property held to earn rental comprises its purchase price, cost of land use rights and any directly attributable expenditure of bringing the property to the condition necessary for it to be capable of operating in the manner intended by management. Expenditure incurred after investment property held to earn rental has been put into operation, such as repairs and maintenance, is charged to the consolidated statement of income in the year in which the expenditure is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in future economic benefits in excess of the originally assessed standard of performance of the existing investment property held to earn rental, the expenditure is capitalised as an additional cost of the investment property.

Depreciation

Land use rights with indefinite period of use are not amortised. Land use rights with definite period of use are stated at cost less accumulated depreciation. Depreciation is computed on a straight-line basis over the estimated useful lives of investment property. The estimated useful lives are as follows:

land use rights	18 - 50 years
buildings	5 - 36 years

for the year ended 31 December 2018 (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(j) Construction in progress**

Projects that are being constructed or developed for future mixed use as fixed assets, investment properties and property for sale (inventories) are classified as construction in progress and stated at cost, until construction or development is completed or costs can be measured reliably for the properties, at which time they are reclassified and subsequently accounted for as fixed assets, investment property or inventories, as described in respective notes.

All costs directly associated with the purchase and development of a project, costs incurred in conjunction with securing the leasehold land use rights, and all subsequent capital expenditures for the development qualifying as acquisition costs are capitalised.

Borrowing costs are capitalised if they are directly attributable to the acquisition, construction or production of a qualifying asset. Capitalisation of borrowing costs commences when the activities to prepare the asset are in progress and expenditures and borrowing costs are being incurred. Capitalisation of borrowing costs may continue until the assets are substantially ready for their intended use. Capitalisation is suspended when construction or production activities of qualifying assets are suspended. The capitalisation rate is arrived at by reference to the actual rate payable on borrowings for development purposes or, with regard to that part of the development cost financed out of general funds, to the average rate.

(k) Long-term prepaid expenses**(i) Prepaid land costs**

Prepaid land costs comprise prepaid land lease rentals, including those for which the Group obtained land use rights certificate but are not qualified as intangible fixed assets under Circular No. 45/2013/TT-BTC dated 25 April 2013 of the Ministry of Finance providing guidance on management, use and depreciation of fixed assets, and other costs incurred in conjunction with securing the use of leased land. These costs are recognised in the consolidated statement of income on a straight-line basis over the term of the lease of 8 years.

(ii) Tools and supplies

Tools and supplies held for use by the Group in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of tools and supplies are amortised on a straight-line basis over a period ranging from 2 to 3 years.

(iii) Others

Other prepaid expenses mainly comprise renovation expense are amortised on a straight-line basis over a period ranging from 2 to 3 years.

(l) Trade and other payables

Trade and other payables are stated at their cost.

(m) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

for the year ended 31 December 2018 (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(n) Share capital****(i) Ordinary shares**

Ordinary shares are stated at par value. Excess of cash receipt from share issues over par value is recorded as share premium. Incremental costs directly attributable to the issue of shares, net of tax effects, are recognised as a deduction from share premium.

(ii) Repurchase and reissue of ordinary shares (treasury shares)

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is recognized as a reduction from equity. Repurchased shares are classified as treasury shares under equity. When treasury shares are sold for reissue subsequently, cost of the reissued shares is determined on a weighted average basis. Any difference between the amount received and the cost of the shares reissued is presented within share premium.

(o) Equity funds

Allocations are made to equity funds from retained profits each period based on percentage decided by the shareholders in their annual ordinary general meeting.

(p) Taxation

Income tax on the consolidated profit or loss for the year comprises current and deferred tax. Income tax is recognised in the consolidated statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the year, using tax rates enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(q) Revenue**(i) Sales of real estate**

Revenue from transfer of land use rights and sale of standard-designed houses which do not require significant customisation for each customer is recognised in the consolidated statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due. Transfer of significant risks and rewards is determined to be at the time of sale or completion of the property, whichever is later.

for the year ended 31 December 2018 (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(q) Revenue (continued)****(ii) Sales of merchandise goods**

Revenue from the sale of merchandise goods is recognised in the consolidated statement of income when significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or possible return of goods. Revenue on sales of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

(iii) Services rendered

Services mainly consist of repair and maintenance for cars and motorbikes.

Revenue from services rendered is recognised in the consolidated statement of income in proportion to the stage of completion of the transaction at the balance sheet date. The stage of completion is assessed by reference to surveys of work performed. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(iv) Rental income

Rental income from leased property is recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives granted are recognised as an integral part of the total rental income.

(r) Financial income**(i) Interest income**

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

(ii) Revenue from security trading

Revenue from security trading activities is recognised in the consolidated statement of income when significant risks and rewards of ownership have been transferred to the buyer. Significant risks and rewards of ownership have been transferred upon the completion of trading transaction (for listed securities) or the completion of the agreement on transfer of assets (for non-listed securities).

(iii) Dividend income

Dividends income is recognised when the right to receive dividends is established.

for the year ended 31 December 2018 (continued)

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)**(s) Operating lease payments**

Payments made under operating leases are recognised in the consolidated statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the consolidated statement of income as an integral part of the total lease expense.

(t) Borrowing costs

Borrowing costs are recognised as an expense in the year in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the year of construction are capitalised as part of the cost of the assets concerned.

(u) Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders (after deducting any amounts appropriated to bonus and welfare funds for the accounting period) of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares, which comprise convertible bonds and share options.

(v) Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format for segment reporting is based on business segment. The Group operates in Vietnam, a single geographical segment.

(w) Related parties

Parties are considered to be related to the Group if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Group and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.
